

BraceNBlock™ Edge

24" Metal Root Block Edging

BraceNBlock™ Edge Metal Edging Products Allow You To Easily Handle Your Installation Needs And To Create Beautiful Landscapes With Their Innovative Advantages, Benefits, And Multiple Uses

BraceNBlock™ Edge 24" Metal Root Block Edging

- Blocks tree roots from growing underneath and invading residential and commercial foundations, sidewalks, driveways, and patios.
- Blocks plant and tree roots from growing into plumbing and drainage pipes.
- Protects homes, garages, fences, and commercial buildings from soil moisture absorption, water rot, and insect infestation when the top edge is placed 1" above the soil.
- Flexibility allows it to conform to any installation need.
- Mesh design allows the root block fabric to stay in place and not be pushed aside by roots.
- No time limit on durability or function.
- Installation is easier, faster, less laborious, and less expensive than conventional methods.
- Attractive, durable, long lasting, and sturdy.
- Easy to use and install.
- Flexible, bendable, and adaptable and it customizes to fit any of your personal landscape needs.
- Lightweight and easy to handle.
- Easy to cut along its length and width.
- Easy to repair.
- An edging to fit every project.
- Contractor grade product ideal for those who want professional quality results.
- Replaces conventional edging products with its advantages, benefits, and multiple uses.

BraceNBlock™ Edge Construction (Patented Design)

- BraceNBlock™ Edge's patented, double sided, mesh design enclosing a water permeable root blocking fabric braces soil and water; blocks plant roots, tree roots, and weeds from entering tended areas; and maintains its beauty year after year.
- BraceNBlock™ Edge provides maximum soil anchoring without the need for anchor stakes. Its unique, patented, mesh design allows it to adhere to and grab the surrounding soil and allows plant roots to grab it keeping it securely in place. It will remain symmetrically vertical in the ground without support stakes when properly installed and you get no frost heave.

BraceNBlock™ Edge Construction (Metal)

- BraceNBlock™ Edge is made of heavy duty, double sided, galvanized metal wire mesh coated with vinyl that is durable, strong, sturdy, and long lasting yet flexible. Ultra Violet inhibitors block sun rays for maximum vinyl durability.
- Professional, heavy gauge construction and quality for all of your commercial and residential projects.
- BraceNBlock™ Edge is resistant to insects, weather, and exposure to chemicals such as plant fertilizers, insecticides, and herbicides which are normally found in gardening, agricultural, and construction settings.
- BraceNBlock™ Edge will not chip, crack, rot, rust, split, or fade at any temperature.
- BraceNBlock™ Edge's smooth edge is safe for children, adults, and pets in walking, running, and play areas.

BraceNBlock™ Edge Construction (Root Blocking Fabric)

- BraceNBlock™ Edge uses a root blocking fabric that is permeable to water, air, oxygen, nutrients, chemicals, and fertilizers through millions of tiny holes while blocking plant roots, tree roots, and weeds and conserving soil moisture.
- A landscape edging with a built-in drainage system. Stops flooded plant beds.
- Blocks the horizontal growth of plant roots from growing into the garden bed when placed at the bed edge (ex. liriopie, monkey grass, lawn grass, weeds, etc.) while allowing excellent bed drainage.
- BraceNBlock™ Edge blocks tree roots from entering garden beds when it is placed around the perimeter of the bed 12" below ground.
- BraceNBlock™ Edge blocks tree roots from growing underneath and invading residential and commercial foundations, sidewalks, driveways, and patios.
- Can be used vertically in pots to keep plant roots separated one from another such as herbs.
- Can be used by nurseries to keep seedling roots separated one from another.
- Weed block fabric has no dangerous chemicals to leach into the ground.

U.S. Patent Nos. 6,108,972; 6,189,263; 6,230,439; 6,270,286; And Foreign Patent Rights Pending.

BraceNBlock™ Edge

24" Metal Root Block Edging

BraceNBlock™ Edge Metal Edging Products For All Of Your Installation Needs

BraceNBlock™ Edge 24" Metal Root Block Edging

- Blocks tree roots from growing underneath and invading residential and commercial foundations, sidewalks, driveways, and patios.
- Blocks plant and tree roots from growing into plumbing and drainage pipes.
- Protects homes, garages, fences, and commercial buildings from soil moisture absorption, water rot, and insect infestations when the top edge is placed 1" above the ground.
- Flexibility allows it to conform to any installation need.
- Mesh design allows root block fabric to stay in place and not be pushed aside by roots.
- No time limit on durability or function.
- Installation is easier, faster, less laborious, and less expensive than conventional methods.
- Installation Instructions:
 - Dig a trench 23" deep along the foundation or marked landscape area.
 - Carefully measure and mark the edging to make exact, even cuts.
 - Lay in the edging with 1" of the edging above ground and 23" below ground.
 - To splice two ends together simply overlap the two ends at least 6" over one another. Place duct tape across the overlapped seams on both sides before backfilling with soil.
 - Pack both sides of the edging with soil and press down firmly.
