

BraceNBlock™ Edge

24" Metal Liner Pond Edging

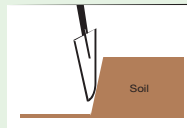

- Attractive, durable, long lasting, and sturdy.
- Allows you to create beautiful landscapes.
- Construction of natural looking streams, ponds, and lakes.
- Eliminates the unnatural looking "pond rock necklace".
- Flexibility allows it to conform to any shaped stream, pond, or lake.
- Holds liner in place with less water leakage.
- Installation is easier, faster, less laborious, and less expensive than conventional methods.
- Allows plants and lawn to grow up to the water's edge due to the narrowly constructed liner pond edge.
- Keeps soil, mulch, chemicals, and fertilizers from entering the water.
- Patented soil bracing and root blocking design:
 - Made using galvanized metal wire mesh coated with vinyl enclosing a water permeable root blocking fabric.
 - Professional, heavy gauge construction.
 - UV inhibitors block sun rays for maximum vinyl durability.
- Replaces conventional edging products with its advantages, benefits, and multiple uses.
- Unconditional money back guarantee.

25 foot roll 24 inches wide.

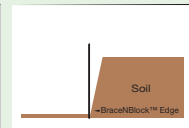

BraceNBlock™ Edge Splice Connectors, 90° Right Angle Connectors, and End Connectors sold separately.

U.S. Patent Nos. 6,108,972; 6,189,263; 6,230,439; 6,270,286; And Foreign Patent Rights Pending.

Installation Instructions:

1. Dig Trench

2. Place Edging

3. Fill Trench

- Use a rope or garden hose to lay out the stream, pond, or lake.
- Trench BraceNBlock™ Edge 2" - 3" above the planned water level at the excavated water's edge.
- Place BraceNBlock™ Edge Splice Connectors every 1'-2' for support.
- Fold 6"-8" of butyl liner over BraceNBlock™ Edge and tuck the liner into the trench on the outside of the placed BraceNBlock™ Edge.
- Backfill the trench and add water to the stream, pond, or lake.

Tips:

- Cut to size with wire cutters or hacksaw.
- When properly installed your finished result will last for years.

Caution:

- Wear gloves for extra protection.
- Wear eye protection when using any striking tool.

Product Cat. No. 24MLPE
