

BraceNBlock™ Edge

24" Metal Root Block Edging

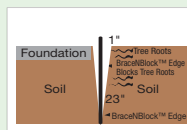

- Attractive, durable, long lasting, and sturdy.
- Installation is easier, faster, less laborious, and less expensive than conventional methods.
- Blocks tree roots from growing underneath and invading residential and commercial foundations, sidewalks, driveways, and patios.
- Blocks plant and tree roots from growing into garden beds and plumbing and drainage pipes.
- Flexibility allows it to conform to any installation need.
- Mesh design allows the root block fabric to stay in place and not be pushed aside by roots.
- No time limit on durability or function.
- Weed blocking fabric has no dangerous chemicals to leach into the soil.
- Patented soil bracing and root blocking design:
 - Made using galvanized metal wire mesh coated with vinyl enclosing water permeable root blocking fabric.
 - Professional, heavy gauge construction.
 - UV inhibitors block sun rays for maximum vinyl durability.
- Replaces conventional edging products with its advantages, benefits, and multiple uses.
- Unconditional money back guarantee.

25 foot roll 24 inches wide.

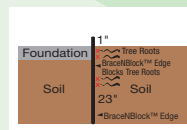

Installation Instructions:

1. Dig Trench

2. Place Edging

3. Fill Trench

- Dig a trench 23" deep along the foundation or marked landscape area.
- Carefully measure and mark the edging to make exact, even cuts.
- Lay in the edging with 1" of the edging above ground and 23" below ground.
- To splice two ends together simply overlap the two ends at least 6" over one another. Place duct tape across the overlapped seams on both sides before backfilling with soil.
- Pack both sides of the edging with soil and press down firmly.

Tips:

- Cut to size with wire cutters or hacksaw.
- When properly installed your finished result will last for years.

Caution:

- Wear gloves for extra protection.
- Wear eye protection when using any striking tool.

Product Cat. No. 24MRBE

U.S. Patent Nos. 6,108,972; 6,189,263; 6,230,439; 6,270,286; And Foreign Patent Rights Pending.
