

BraceNBlock™ Edge

6" Metal Landscape Edging

- Attractive, unique, patented, double sided, metal mesh design enclosing a water permeable root blocking fabric stays in place and promotes excellent drainage.
- A landscape edging with a built-in drainage system. Stops flooded plant beds.
- Braces soil without support stakes.
- Blocks plant roots, tree roots, and weeds.
- Maximum soil anchoring without the need for anchor stakes.
- Patented soil bracing and root blocking design:
 - Made using galvanized metal wire mesh coated with vinyl enclosing a water permeable root blocking fabric.
 - Professional, heavy gauge construction.
 - UV inhibitors block sun rays for maximum vinyl durability.
- Durable, long lasting, and sturdy.
- Easy to use and install with minimal digging.
- Allows you to create beautiful landscapes.
- Replaces conventional edging products with its advantages, benefits, and multiple uses.
- Unconditional money back guarantee.

25 foot roll 6 inches wide.

BraceNBlock™ Edge Splice Connectors, 90° Right Angle Connectors, and End Connectors sold separately.

U.S. Patent Nos. 6,108,972; 6,189,263; 6,230,439; 6,270,286; And Foreign Patent Rights Pending.

Installation Instructions:

1. Dig Trench

2. Place Edging

3. Fill Trench

- Use a rope or garden hose to lay out the landscape shape.
- Dig a trench 5" deep along the marked lawn area.
- Carefully measure and mark the edging to make exact, even cuts.
- Lay in the edging with 1" of the edging above ground and 5" below ground.
- Use the Splice Connector for splicing together the two ends of the landscape edging.
- Simply hammer the Splice Connector over the two ends of the landscape edging.
- Pack both sides of the edging with soil and press down firmly.

Tips:

- Cut to size with wire cutters or hacksaw.
- When properly installed your finished result will last for years.

Caution:

- Wear gloves for extra protection.
- Wear eye protection when using any striking tool.
